

Putting Your Values First

COMPOSITE RESIDENTIAL DOORS

Platinum
NRG

Welcome

The entrance to a property speaks volumes about its owners. An elegant door from our Composite range will bring a personal touch of style to the entrance of your home.

This exclusive product is available as a front or rear entrance door, offering a choice of different styles and colours.

Add your preferred decorative glass, your choice of furniture options and each door becomes unique to you.

We can ensure a great first impression, lasting durability, security, energy efficiency and peace of mind.

Benefits

CONSTRUCTION

Manufactured from thermoset GRP (Glass Reinforced Polyester), the doors are compression moulded to give a high definition panel design.

Authentic timber appearance which is unaffected by variations in temperature.

This provides a thermal efficiency nine times that of a timber door.

It is secure and attractive, with no unsightly plugs or screws.

Hardwood reinforcement combined with hardwood ply for maximum strength

SECURITY

We don't compromise when it comes to security. Our composite door range comes fitted with multi point locking, optional anti-bump or anti-pick/anti drill cylinders, anti tamper cylinder guard, stainless steel lock keeps and a steel reinforced frame.

ACCESS

All composite doors can be supplied with an optional low threshold in either gold or silver finish, to match your choice of door furniture. The low rise provides easy access for prams, push chairs or wheel chairs.

DURABILITY

The GRP (glass reinforced plastic) inner and outer door sash skins are extremely durable and highly resistant to accidental damage such as dents and scratches. All door styles are white as standard on the inside skin with a choice of colours for the external face.

ENERGY

The HCFC and CFC free foam core of the door sash is six times more energy efficient than standard timber doors. Glass units consist of toughened safety hermetically sealed into a double or triple glazed unit.

Personalise
